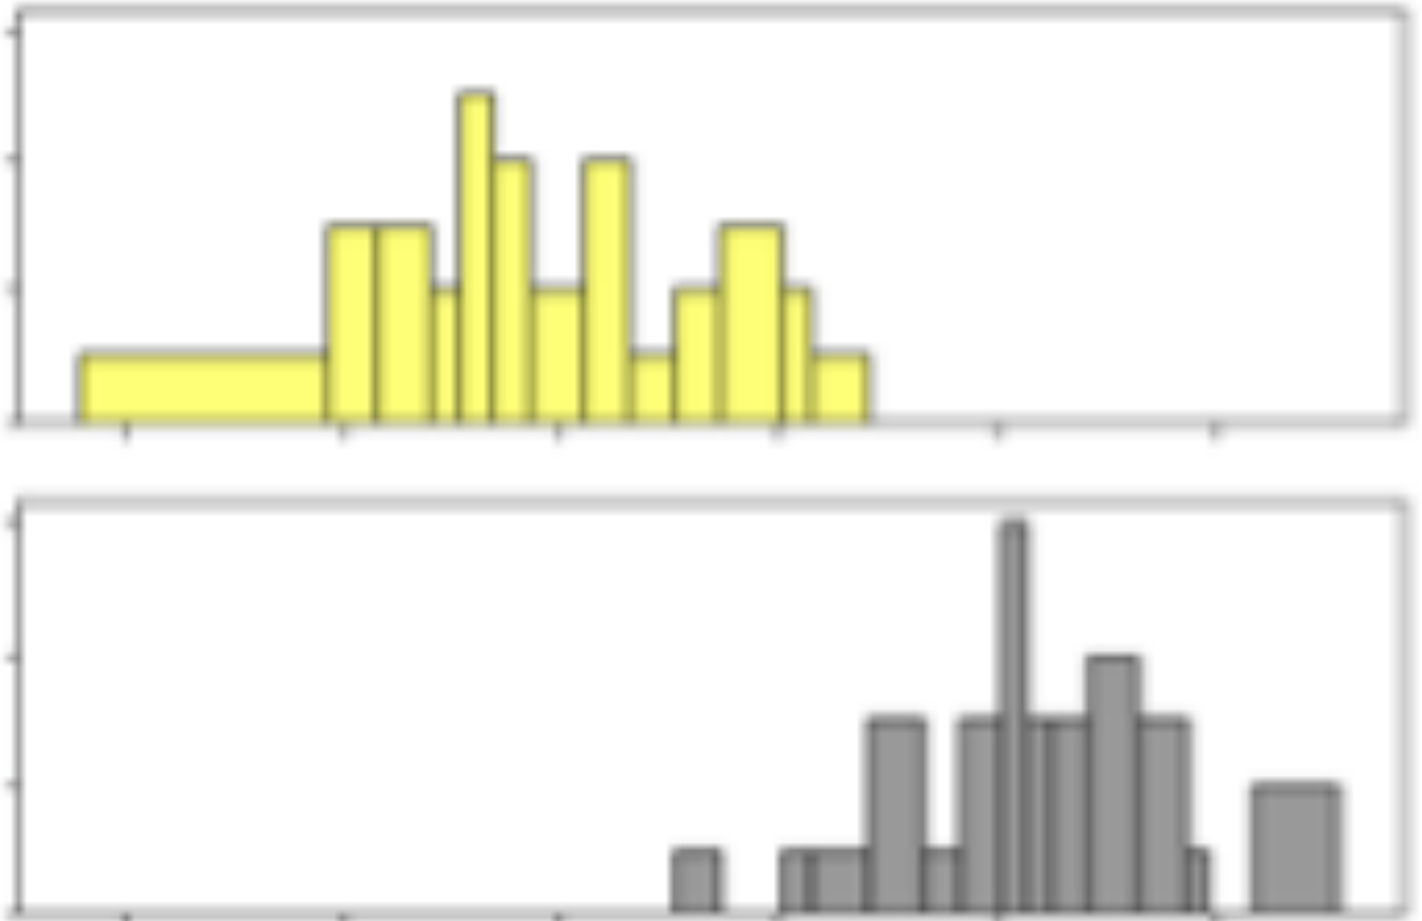
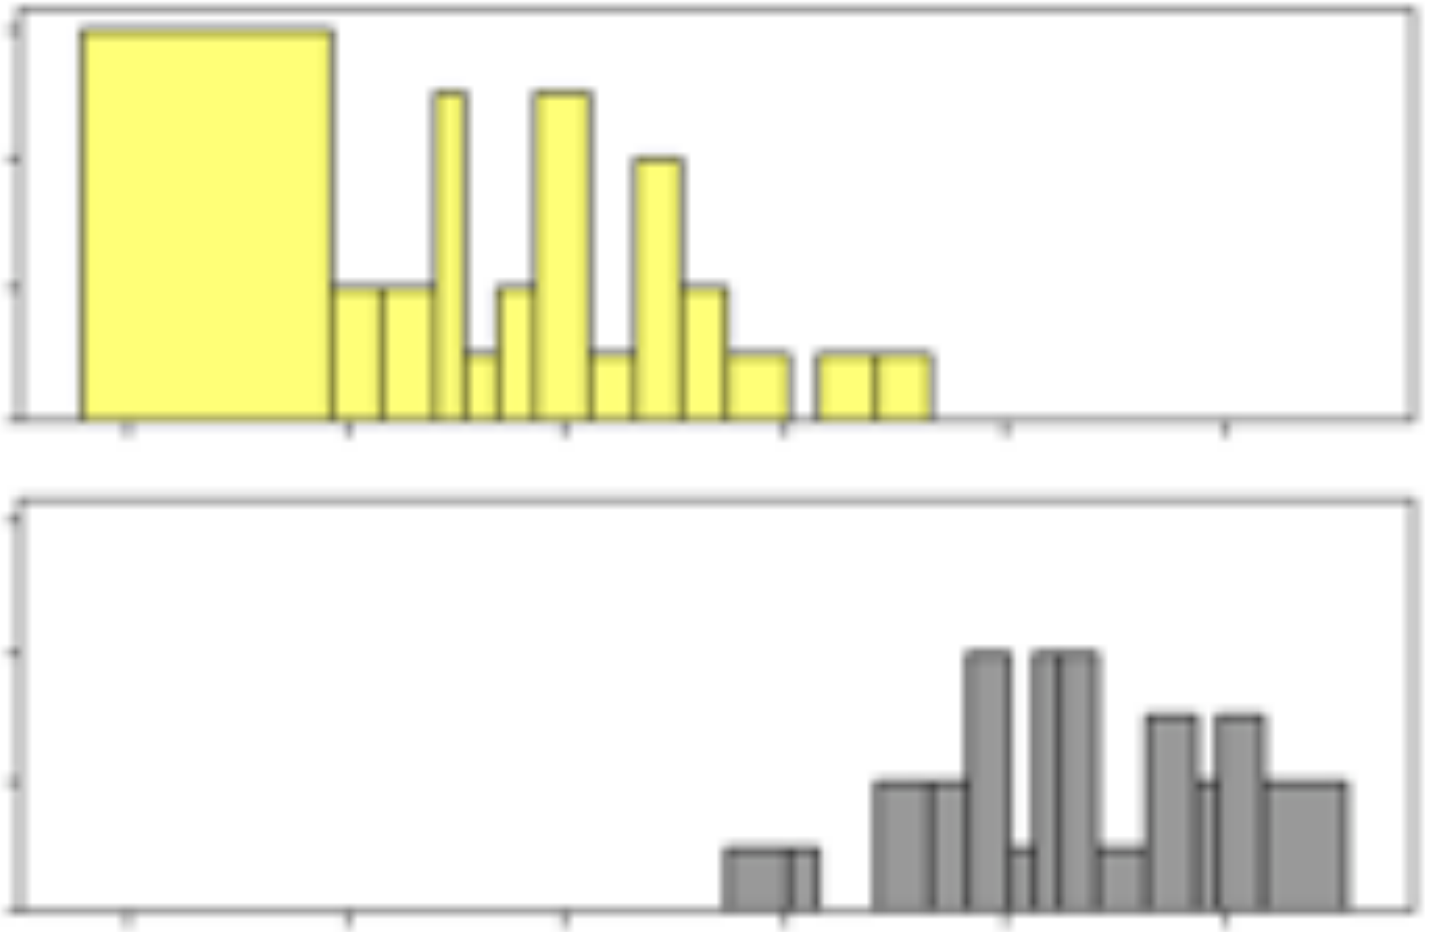
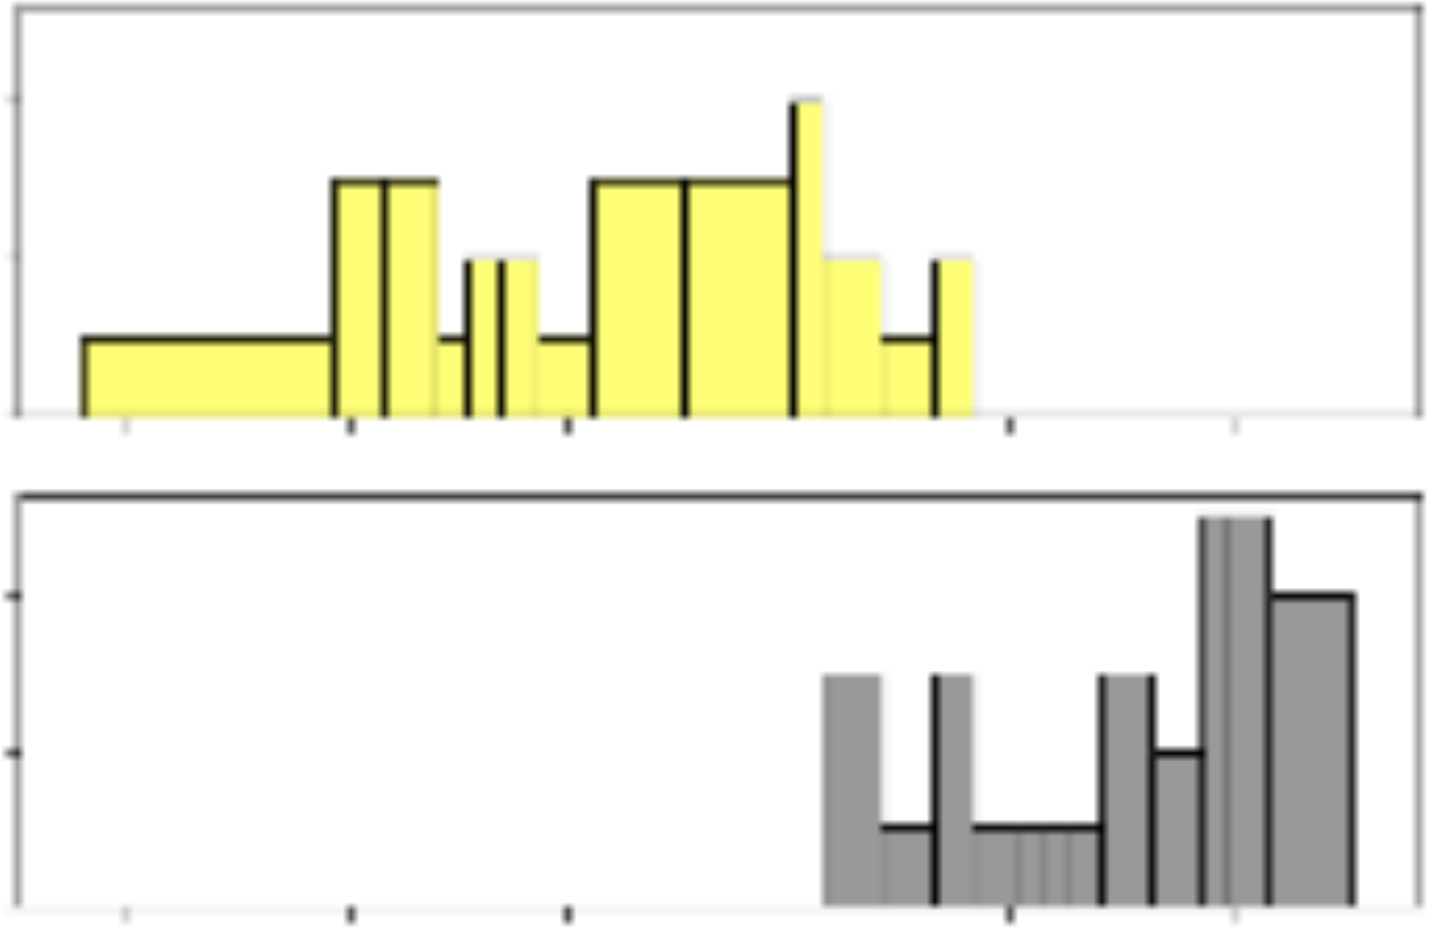
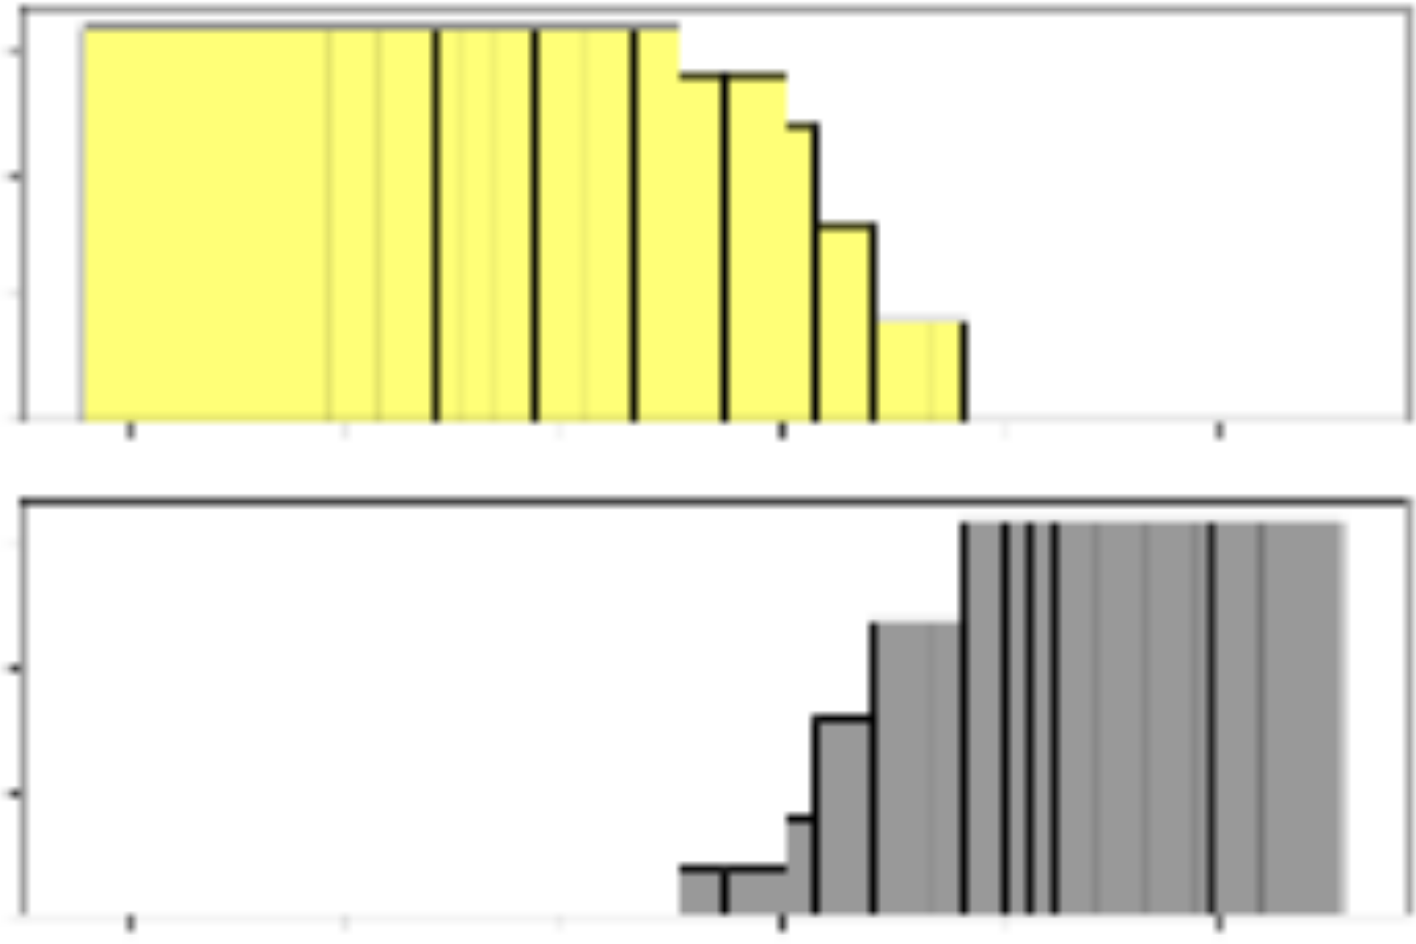
Random Forests in H2O

histogram_type = Quantiles









RF Parameters: Class Imbalances

- **`balance_classes`**: balance training data class counts via over/under-sampling (default: False)
- **`class_sampling_factors`**: desired over/under-sampling ratios per class (in lexicographic order). If not specified, sampling fac- tors will be automatically
- **`max_after_balance_size`**: maximum relative size of the training data after balancing class counts (can be less than 1.0). Requires balance classes. Defaults to 5.0.
- **`sample_rate_per_class:`** variable row sampling rate per class
